WHEN THERE IS DARKNESS THERE IS A NITECORE LIGHT

NITECORE LED lights are standard equipment for military and law enforcement in various countries, as well as professional gear favored by outdoor enthusiasts around the world. This proves NITECORE to be the ideal choice for outdoor adventures, law enforcement, trail running, industrial lighting and many other fields.

Hiking/Trekking

Generally, lights for hiking not only require high output but also light weight, long duration and reliability. For team leaders, high output and far-reaching spotlights help them to see the path ahead, and a red caution light makes it easier for their team members to find and follow them.

Recommended models: NU25, NU33, NU40, NU43, NU50

Running

For long distance running, runners may prefer a lightweight headlamp with flood light and long runtime. High output and red caution light are required when necessary. For those who enjoy leisurely urban night running, a high performance headlamp ensures their safety in running.

Recommended models: UT27, UT32, NU25, HA11, NU31, NU25 UL

Caving

Due to the dangerous and low-light environment in cave, high output lights are required for caving. Since there is water in cave and the temperature is low, low temperature resistance and waterproofness are necessary. Ruggedness are also paramount.

Recommended models: HU60, HC33, HC60 V2, HC65 V2, NU33, NU40, NU43

Climbing

Considering the harsh environment on high altitude, a headlamp with high intensity, long runtime and grand throw is essential. For freezing environments, low temperature resistance is required to maintain stable performance of lights. Hands-free and lightweight products are more popular.

Recommended models: HC33, HC60 V2, HC65 V2, NU43, NU50

Camping

For camping, a lightweight and portable lantern with a loop or magnetic base may be the most convenient to set hands free. Besides high output, it also requires soft beam with high colour rendering index, long duration and more.

Recommended models: NU25, LR40, LA10, LR12, LR70, Bubble, NU33, NU31, NU40, NU43

Search & Rescue

For search and rescue, a lighting tool should preferably have blinding lumens, superb beam distance as well as long runtime. Qualities like portability, ruggedness and light weight are also a plus.

Recommended models: TM20K, TM39, TM39 Lite, TM28, P30i, HC33, NU43, NU50, MH40S, P35i

Tactical

As a simple and intuitive UI is most important in tactical lights, STROBE READY™ definitely meets the need. Besides, it requires high output and tactical defense function. Using with bezel, tactical ring, gun mount and remote switch to enhance the tactical function overall.

Recommended models: P20UV V2, P20iX, P23i, NPL20, NPL30, CI7, MH12SE, SRT6i, SRT7i, TM9K TAC,

Law Enforcement

For law enforcement applications, the lighting tools should have high output, long runtime and direct access to strobe. This kind of lighting tool should be highly reliable in resisting dust, water and shocks, and should be tough enough to confront contingencies.

Recommended models: P23i, P20iX, P20UV V2, MT1A, NU06 LE, NU07 LE, TM9K TAC, TM12K, MH12SE, SRT6i, SRT7i

Hunting

A hunting light should have high output with optimal beam distance to ensure long range visibility. Light weight, compatibility with shotguns, ability to absorb recoil are also required. Colored outputs are preferred to preserve users' night adapted vision, or to not startle the preys.

Recommended models: P30i, NEW P30, MH25 V2, MH40S, P35i

EDC

EDC (everyday carry) is designed to be carried with you everyday, thus it must be ultra-compact, lightweight, and always works when you need it. It does not require multiple choices of brightness level, whilst sufficient runtime and easy operation are necessary.

Recommended models: EDC27, E4K, T4K, TUP, TINI2, TIP2, TIKI, TIKI LE, TIKI GITD, TIKI UV, TIP SE, TUBE V2.0

Industrial Workplace

Rechargeable lights are usually welcomed by industrial workers due to better cost performance. Hands-free capability, portability, an intuitive user interface are required to ensure convenience. For hazardous industries like mining or oil extraction, explosion-proof lights are mandatory.

Recommended models: EF1, HA23-Ex, UT27, UT32, HC33, HC60 V2, HC65 V2, NU35, TM28, TM39, TM39 Lite, NU50

Cycling

Lighting with capability to illuminate blind spot ahead or under foot is essential to ensure safety in cycling. Features like multiple modes for different riding conditions, easy to operate, install or remove, flexible charging options, compatibility with handlebars of various sizes also add up to a great bike light. A rear caution light is also necessary for maximum attention and safety.

Recommended models: BR35, BR25

Fishing

Hands-free capability is paramount. Colored outputs are inconspicuous, especially blue light. Blue light will not alarm underwater wildlife, and is able to attract some fishes, activate fluorescence of the float, which is why it is well received by fisherman or fishing enthusiasts.

Recommended models: TUP, HA11, NU25

Photography

Full area coverage uniform lighting with color rendering capability is best for photography. Multiple output choices allowing for adjusting lighting according to ambient environment are also required. Portability, compatibility with tripods and colored outputs are a plus.

Recommended models: GP3, TM28, SCL10

NITECORE®

ABOUT NITECORE

Inspired by the notion to "Keep Innovating" with the industry-leading innovative power for 16 years, NITECORE is the first brand to achieve a grand slam milestone in the industries of professional lighting and chargers to receive the German iF Design Award, Red Dot Design Award, the Japanese G-Mark (Good Design) and the American IDEA, as well as Gold Winners of the ISPO Award and Outstanding Outdoor globally recognized in the outdoor industry. We specialize in product lines varying from professional lighting to power solutions, camera cleaning solutions, and carry gear specially designed for law enforcement and military departments, industrial corporations and outdoor enthusiasts worldwide.

PRODUCT AWARDS

Established in 2007, NITECORE has long been at the forefront of technological advancement in portable illumination. Through its tremendous research and development capacity, NITECORE has become the first brand in the professional lighting and illumination industry to receive all four grand international design prizes including the American IDEA, the German iF Design Award, Red Dot Design Award and the Japanese G-Mark (Good Design), in addition to the worldly famous ISPO Award in the outdoor industry. NITECORE products are internationally recognized in over 130 countries.

GLOBAL PRESENCE

NITECORE has played an essential role in various organizations around the globe and has made great contributions to the outdoor and tactical industry. By now we are the active members of the following organizations:

The Portable Lights American Trade Organization (PLATO)

National Shooting Sports Foundation (NSSF)

High and New Technology Enterprise (HNTE)

Provincial Excellent Enterprise of Guangdong

China Sporting Goods Federation (CSGF)

MAGAZINE

Media and Press is also an important tool for us to introduce the NITECORE brand to users worldwide.

WHAT IS AN LED?

LED is an acronym for Light Emitting Diode – a special type of semiconductor that was initially used to replace standard lamps in early electronic equipment, later progressing to consumer electronics in the form of VCR and calculator displays. With the advance of technology, LED can be used as a light source with a general life expectancy of 50,000 hours or even 100,000 hours. In addition, LED features the advantages of energy saving and environmental protection, small size and long lifespan, and can be applied in harsh environments.

LED

NITECORE'S PROPRIETARY LED TECHNOLOGY

NITECORE's highly efficient, ultra reliable proprietary LED drive circuit plays a crucial role in efficiently transferring battery power to the LED. As a result, all NITECORE products have exceptional output and long runtimes in comparison to competing products. While the majority of LED-based flashlight/personal lighting products on the market today suffer from continuously declining output, NITECORE products are able to maintain constant high output until battery exhaustion.

ADVANCED CIRCUITRY

NITECORE's proprietary regulation circuit is an essential component in every NITECORE flashlight. The circuit's unique power source management system delivers constant current to the LED regardless of battery condition/chemistry, resulting in continuous, unwavering light output for end users. The circuit's efficiency and reliability is further enhanced by carefully engineered electronic components such as gold or silver plated contact points. Moreover, every NITECORE flashlight features an integrated microcontroller unit which works in tandem with the regulation circuit to offer an intuitive and versatile user-interface.

An Led drive/regulation circuit is crucial in improving the efficiency of the 'power to light' conversion process, allowing for longer runtimes and more stable operation using various battery chemistries. NITECORE's highly reliable and compact drive circuit is the reason why NITECORE flashlights run longer and shine brighter than the competition.

LENS AND REFLECTORS

With many years of experience in flashlight optical design, NITECORE's custom-engineered high-efficiency alloy reflectors ensure every flashlight emit a balanced beam profile of both flood and throw with minimal loss of light. All NITECORE reflectors are protected by AR-coated, anti-scratch mineral glass lenses.

PRECISION DIGITAL OPTICS TECHNOLOGY

PDOT utilizes digital simulation and precise point-to-point curved reflecting methods to optimize reflector performance. This ensures a more consistent, uniform and far-reaching beams capable of illuminating targets at distance.

DIE-CASTING

NITECORE is the first manufacturer to incorporate die casting into the making of a flashlight. This manufacturing process gives a flashlight a significant reduction in weight and size, and an increase in solidity and heat dissipation. Die-cast flashlights are extremely lightweight, compact and robust. Take the EC4 as an example, it is 37% smaller and 30% lighter than products of similar functionality and yet has 200% the strength of an ordinary CNC machined rival. By employing new techniques/ technologies, NITECORE has always been innovating to offer significant gains in both ruggedness and performance.

BILLET ALUMINUM BODY

Most of the NITECORE flashlights are constructed from lightweight, high strength aerospace grade aluminum alloy. Additionally, the majority of NITECORE models are CNC machined from a solid aluminum bar. This manufacturing process gives NITECORE flashlights their superior impact resistance. Many lights are able to withstand being rolled over by car or dropped from several meters onto a hard surface with no performance loss (not recommended as doing so may void warranty). Compared to other similar tubular aluminum flashlights, NITECORE flashlights offer significant strengths in both rigidity and performance. Furthermore, most of the NITECORE models are treated with a military-spec HAIII hard anodized finish, making the flashlight surface as tough as a diamond, thus protecting it from scratches, abrasions and corrosion.

COLOR RENDERING INDEX (CRI)

The Color Rendering Index (CRI) is a scale from 0 to 100 percent indicating how a light source makes the color of an object appear to human eyes, and how well subtle variations in color shades are revealed. Light sources with a high CRI are more likely to reveal the original colors of the object, thus becoming more desirable in the market since they can reduce eye strain and give a vibrant view.

NITECORE Models with High CRI Light: TIKI, TIKI GITD, NU31, NU35, HC65M V2, HC65 V2

NEUTRAL WHITE & WARM WHITE

LED color temperatures can be divided into cool white (about 5700-6500K), neutral white (about 4000-5000K) and warm white (about 3000-3500K). Neutral white lighting strikes the perfect balance: it has high CRI ability and reduces eye strain, making it extremely easy for the users to see every detail of the object. Neutral white's relatively low color temperature and long wavelength allow it to further penetrate rainy and foggy weather, and its high luminous efficiency also saves battery power. That's why harsh outdoor situations require neutral white lights.

NITECORE Neutral White Models: HC60W V2

NITECORE Warm White Models: UT27, UT32

ULTRAVIOLET & INFRARED

The UV light has shorter wavelengths than visible light, and is also known as black light. Ultraviolet LED flashlights are useful in many applications, including identifying forged documents, tracing marked bills, leakage/grease inspection, sanitary check, hunting scorpions etc.

The IR light is with wavelengths longer than those of visible light. Extensive uses for military and civilian applications include target acquisition, surveillance, night vision, homing, and tracking.

NITECORE Ultraviolet Models: CU6, TIKI, TIKI UV, THUMB LEO

NITECORE Infrared Models: CI7, NU06 MI

STROBE READY™

In law enforcement, the strobe flashlight for self-defense is used on potential suspects who may present a danger but are not lethally armed. The strobe light is disorienting to the person it is aimed at which makes it difficult for them to concentrate. Also, they avert their eyes away from the strobing effect. This means it is easier for the police to subdue successfully and control the suspect.

2nd Generation STROBE READY™ Technology

- 1 Specially designed for tactical applications to enable a quick access to STROBE Mode (Patent No.: ZL201320545349.4)
- 2 Inset pedal design to avoid accidental activation (US Patent No.: 15/846299 US10237955B1)

The 2nd Generation STROBE READY™ Technology is specially designed by NITECORE for tactical applications to enable a quick access to STROBE Mode with the dual tail switches and the inset pedal design to avoid accidental activation.

NITECORE STROBE READY™ Models: P10i, P20i UV, P10iX, P20iX, P20iUV V2, CI7

ADVANCED RANDOMLY CHANGING STROBE MODE

The randomly changing frequencies available in the STROBE Mode of latest NITECORE models can cause stronger dizzying effects due to the inadaptability of the naked eyes.

NEXT GENERATION 21700 LI-ION BATTERIES

With an upgraded performance in a similar size featuring long lifespan, high energy density and powerful performance, 21700 Li-ion batteries were first introduced in the electric car industry and are considered to be the future of cylindrical batteries.

With the 18650/CR123 battery magazine, the latest NITECORE 21700 flashlight models have full compatibility of battery sizes and are recommended to be powered by 1 x 21700 battery to gain an extended long runtime while compatible with 1x18650 battery or 2 x CR123/RCR123 batteries.

EF

Explosion-Proof Series

To meet the demand of market, NITECORE has developed explosion-proof series. It is suitable for various flammable and explosive sites and underground operations, serving as portable lighting for electric power industry, metallurgical industry, petroleum industry, railway, firefighting, factories and mines.

INSTRUCTIONS ON CONFORMITY ASSESSMENT OF NITECORE EXPLOSION-PROOF PRODUCTS

| A. According to explosion-proof types | | | |
|---------------------------------------|-----------|--------------------|-----------------------|
| | | ATEX Certification | |
| Intrinsically Safe | EH1, EH1S | Certified by TUV | I M1 Ex ia op is I Ma |
| | HA23-Ex | Certified by PCEC | Ex ia IIC T4 Ga |
| Flameproof | EF1 | Certified by BV | II 2G Ex d IIC T6 Gb |
| | | Certified by PCEC | Ex d IIC T5 Gb |

| B. According to product classifications | | | | | | | |
|---|-----|---------------------|----|----|----|----|-----|
| | | Temperature Classes | | | | | |
| | | T1 | T2 | T3 | T4 | T5 | T6 |
| Product Classifications | I | | | | | | |
| | IIC | | | | | | |
| | IIB | HA23-Ex, EF1 | | | | | EF1 |
| | IIA | | | | | | |

| C. According to workplaces | | | |
|----------------------------|------|---------------------|---|
| | Zone | Applicable Products | Atmosphere Details * |
| Mines | N/A | EH1, EH1S | An atmosphere containing explosive gas (i.e. methane in coal mines) |
| Non-mines | 0 | — | An atmosphere containing explosive gas which is present continuously or for long periods or frequently |
| | 1 | EF1, HA23-Ex | An atmosphere containing explosive gas which is likely to occur in normal operation occasionally |
| | 2 | EF1, HA23-Ex | An atmosphere containing explosive gas which is not likely to occur in normal operation but, if it does occur, will persist for a short period only |

* The definition on specific atmosphere zones is complicated and based on the source of explosive gas and ventilation conditions in workplaces. Please refer to a supervisor responsible for the matters concerned.

BR

Bike Light Series

Nitecore Bike Light Series utilizes the patented diffuse reflection board to scatter beams evenly to the ground, which eliminates lighting dead zones to ensure users' safety. The innovative dual-distance beam allows for both near and far illumination. Onboard high definition OLED screen displays real-time data and the user-friendly switches provide easy operation. Ensuring users' safety and excellent riding experience in night riding, Nitecore bicycle light is the best choice for users.

GEM

GEM Series

GEM series is professionally designed for gemstones identification, featuring high output and great penetrability. An innovative rotary switch for infinite brightness levels. Multiple light sources optional, making the series perfect for gemstones, jewelries and treasures inspection.

KITS

GEM8

Gemstone Identification Light

500 Lumens 39 Meters

- CREE XP-L HI V3 LED
- 1 x 18650
- 2 x CR123/RCR123

GEM10UV

Gemstone Identification UV Light

3000mW 365nm

- UV LED
- 1 x 18650
- 2 x CR123/RCR123

MH40S KIT

Included Accessories

- 2 x 21700 Li-ion Batteries (NL2150 5,000mAh)
- Wireless Remote Switch
- 2 x Picatinny Rail Mounts (Optional)
- QC Adapter
- USB-C Charging Cable
- Spare O-ring and Lanyard
- Hook-and-loop Fastener
- 2 x Hook-and-loop Straps
- Holster
- NFR65 Filter (Red)
- NFG65 Filter (Green)
- Gun Mount (Optional GM02MH / GM05)

NITECORE®

ACCESSORIES

► Rechargeable Li-ion Batteries

NITECORE rechargeable Li-ion batteries feature higher energy intensity, better power storage and longer runtime compared to other batteries, and environmental-friendly that can be recharged for over 500 times.

| Model | Specification | Capacity |
|--------|---------------|----------|
| NL1823 | 18650 | 2300mAh |
| NL1826 | 18650 | 2600mAh |
| NL1832 | 18650 | 3200mAh |
| NL1834 | 18650 | 3400mAh |
| NL1835 | 18650 | 3500mAh |
| NL166 | 16340 | 650mAh |
| NL1485 | 14500 | 850mAh |
| NL2150 | 21700 | 5000mAh |

► Micro-USB/USB-C Rechargeable Li-ion Batteries

With a built-in Micro-USB / USB-C port, it is convenient to charge the rechargeable Li-ion batteries via a USB cable.

| Model | Specification | Capacity |
|-----------|---------------|----------|
| NL1665R | 16340 | 650mAh |
| NL1475R | 14500 | 750mAh |
| NL1826R | 18650 | 2600mAh |
| NL1834R | 18650 | 3400mAh |
| NL1835R | 18650 | 3500mAh |
| NL2150HPR | 21700 | 5000mAh |
| NL2150RX | 21700 | 5000mAh |

► High Performance Batteries

Specially designed for high performance products, it features high discharge current and excellent output with resistance to extreme conditions, capable of driving your devices to the best performance.

| Model | Specification | Capacity | Discharge Current |
|-------------------------------|---------------|----------|-------------------|
| NL1835HP | 18650 | 3500mAh | 8A |
| NL1835LTHP | 18650 | 3500mAh | 8A |
| IMR18650 3100mAh(For TM28) | 18650 | 3100mAh | 10A |
| IMR18650 | 18650 | 3100mAh | 35A |
| NL2150HPR | 21700 | 5000mAh | 15A |

► Low-temperature Resistant Batteries

Specially designed for freezing environment like high altitude area or severe cold area, it is low temperature resistant even at the lowest of -40°C.

| Model | Specification | Capacity | Discharge Current |
|-------------|---------------|----------|-------------------|
| NL1835LTHP | 18650 | 3500mAh | 8A |
| NL2142LTP | 21700 | 4200mAh | 8A |
| NL2142LTHPR | 21700 | 4200mAh | 15A |
| NL2142LTHPi | 21700 | 4200mAh | 15A |

► 21700 i Series Battery

As a patent product developed by NITECORE, the 21700 i Series Battery is a proprietary 21700 rechargeable Li-ion battery featuring dual way output with positive and negative polarities at both ends and a high energy density.

| Model | Specification | Capacity | Discharge Current |
|-------------|---------------|----------|-------------------|
| NL2140i | 21700 | 4000mAh | 8A |
| NL2150HPi | 21700 | 5000mAh | 15A |
| NL2142LTHPi | 21700 | 4200mAh | 15A |

► Gun Mounts

| | GM02 | GM02MH | GM03 |
|--------------------------|----------------------|----------------|--------------------------|
| Type | Picatinny Rail Mount | Magnetic Mount | Generic Adjustable Mount |
| Compatible Tube Diameter | 1" (25.4mm) | 1" (25.4mm) | 0.3"-1.1" (8mm-28mm) |

| | GM04 | GM05 | GM06 |
|--------------------------|-----------------------|-----------------------|----------------------|

1m (3.28ft) Max Signal Range

Specially designed for wireless control of NITECORE i Series flashlights

Constant-on / STROBE

Tactical Momentary-on

Helmet Clip & Helmet Mounts

NHC10

A helmet clip allows for mounting a headlamp on a thin-edged helmet that does not include headlamp clips.

LMA1

The LMA1 is a flashlight helmet mount compatible with Ops-Core ARC Rails specially designed for law enforcement, firefighting, search and rescue. It is able to hold a flashlight with a standard tube diameter of 1" (25.4mm) and 360° rotatable with quick and easy adjustment to 8 directions.

HRM2

Specially designed for law enforcement and firefighting, the HRM2 is a helmet mount constructed from engineering plastic featuring solidness, lightweight and wearproof. It can be easily installed and conveniently adjust the beam angle with a 3D pivoting system.

Shoulder Clip

NSC10

Equipped with ARC Rails, the NSC10 U-shaped shoulder clip is compatible with the NITECORE NU06, NU07 and more, specially designed for mounting on shoulder straps, backpacks, caps and MOLLE straps to enable various applications

► Interchangeable Tail Caps

Constructed from aero grade aluminum alloy, the U-shaped Tailcap Switch is ultra lightweight, rugged, and durable. It is available to prevent accidental activation with tail stand capability and compatible with a lanyard to carry the flashlight conveniently.

NTC2i

21700 U-shaped Tailcap Switch

Power Button + Mode Button

Compatible with: P10i, P30i, P10iX, P20iX and more

NTC2

21700 U-shaped Tailcap Switch

Power Button

Compatible with: MH25S, MH12 V2, MH25 V2, NEW P30 and more

► Tactical Holsters

Specially designed for law enforcement, NITECORE tactical holsters including NTH10, NTH20 and NTH25 perfectly fit your duty belt to enable hands-free operations and enables a quick draw of your tactical flashlight.

Compatible with belts of 1¼", 1½", 1¾", 2", 2¼"

NTH10

NTH20

NTH25

Compatible with:

P20i UV

P20iX

P20UV V2

► Tactical Magnetic Holster

NTH32

Preventing accidental activation

The NTH32 is specially designed for NITECORE P20iX, providing protection for flashlights and enabling a quick draw.

Compatible with: P20iX

► Tactical Ring Pro

NTR10

The NTR10 is a tactical accessory to enable a unique and flexible way of carrying or operating a flashlight. It can be mounted on the specially designed slots of the latest NITECORE tactical flashlights according to the size of the user's hand.

► Tactical Lanyards

NTL10 / NTL20

Compatible with various types of flashlights, the lanyard enables lighting tools to be hung, suspended or fastened to other objects, thus preventing flashlights from falling or missing.

► Tailcap Signal Light

TSL10i

Specially designed for i-Generation flashlights, it has multiple flashing modes including white, blue, green, red and red/blue warning flashing.

► Battery Magazines

NBM40

For carrying 4 x 18650 batteries

NBM41

For carrying 4 x 21700 batteries

The battery magazine is able to withstand up to 18kg (40 lbs) of weight with tear resistance and high resilience, available to carry 4 x 18650 / 21700 batteries.

► Handle Mount

NHM10

Specially designed for TM Series. Treated with HAIII military grade hard-anodized finish, it is impact and crush resistant, making the flashlight easy to carry.

► Bike Mount

BM02

NITECORE Bicycle Mount fits any flashlight with 1" body diameter, providing quick and easy mounting without any tools, tightly fit different sizes of handlebars.

► Window Breaker

NWB10

Constructed from stainless steel, it can serve as a window breaker or an escape tool in emergency.

It is easy to mount and dismount.

► Silicone Grease

SG7

Silicone Grease is used for lubricating the threads of flashlights.

► Soft Flask

► Traffic Wands

NTW25 NTW32 NTW34 NTW40

Made from PC material that features crush, wear and high temperature resistance, traffic wand can turn flashlights into an orange traffic wand for traffic control, road guide and distress signal.

► Diffusers

NDF25 NDF32 NDF34 NDF40

Constructed from ABS materials, diffuser can convert flashlight output into a soft, white and diffused flood beam, great for comfortable reading, camping and more.

► Filters

Utilized a toughened ultra-clear glass lens with anti-reflective coating that provides impact resistance and maximum light penetrability. Flashlights equipped with the red/green/blue filters to deliver soft red/green/blue light, suitable for short range reading.

| Model | Compatible Size | Color |

► Flexible USB Stands

USB-A to USB-C Stand

USB-C to USB-C Stand

With the flexible USB stand, the keychain lights can become a reading lamp and enjoy the inexhaustible power supply on the go even in the charging status to avoid outdoor power shortage.

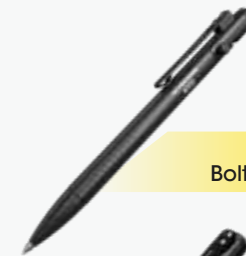

► Nylon Braided USB-C Charging Cable

UAC20

The UAC20 is a USB-C to USB-A 2.0 nylon braided charging cable with a max current of 3A, compatible with the mainstream USB-C devices. The nylon braiding with multiple protections makes it fearless of the outdoor environments.

▶ Waterproof Dry Bags

WDB05

WDB20

Ergonomic Design

Reliable Water Resistance

Secured Fastening System

▶ Running Belt

BLT10

▶ Tactical Case

NTC10

▶ Range Bag

NRB10

▶ Holsters

NCP40

NCP30

The holsters are lightweight and durable, with convenient hook and loop fastener and modular design that enables fast mounting on MOLLE systems.

▶ Hook-and-loop Modules

NHL03

NHL04

NHL01

▶ Tactical Belt Pads

MB LW

MB SL

▶ Headbands

HB02, HB03

Strengthened sewing design provides secure fit for headlamp, a hidden silicone gripper prevents slip by sweat.

▶ Bandanas
